

April 26, 1933

Forester,

Washington, D. C.

Dear Sir:

Receipt is acknowledged of a copy of a brochure prepared by Forest Supervisor M. S. Benedict, of the Sawtooth National Forest, Idaho, on the Pioneer Range, accompanied by your letter of March 17 in which you state that it represents part of the effort being made by Mr. Benedict to stimulate interest in the selection of the most appropriate names for those individual peaks on the Pioneer Range which have not heretofore been named.

This brochure is a worthy addition to the board's files. Aside from the information it furnishes as to how and when the name Pioneer Mountains was given, it will also serve as an excellent example to the other states which may ask information as to how they may honor their pioneers.

Mr. Benedict is to be congratulated on the excellence of the photography and poetry. They are outstanding.

It is my hope that this brochure may be brought to the attention of the public when the individual names of the peaks constituting the Pioneer Range are announced. The brochure should be given the widest publicity in Idaho.

Very truly yours,

John J. Cameron,  
Secretary.
